

LIFE'S BETTER WITH BETTER WATER

Get cleaner, softer water with custom solutions that can handle any water problem you may have.

Aquasential™ High Efficiency Water Softener

Say hello to the world's most efficient water softener*. The Aquasential™ High Efficiency (HE) Water Softener can optimize salt, water and electricity usage to decrease operating costs up to 46%**.

Aquasential® Reverse Osmosis Drinking Water System

The Aquasential® Reverse Osmosis (RO) Drinking Water System features advanced filtration that makes getting great water simple. With highly customizable filtration options, you and your family can get cleaner, better-tasting water that you can feel good about — whenever you need it.

Tankless also available.

Aquasential™ Select Series™ and Select Plus Series™ Whole House Water Filters

The Aquasential™ Select Series™ brings you efficient whole-home water filtration from one low-maintenance system. The filtration system is designed to reduce sediment in your tap water, giving you better-tasting, feeling and smelling water straight from the faucet.
